PEMBINA NEWS-ADVERTISER

Vol. 7 No. 8 February 21, 1932 A. Playford, Publisher

Box 234, Drayton Valley.

ENGINEERS VISIT PEMBINA FIELD

Picture of a group that toured the Pembina Field recently. The picture was taken by Pat Sullivan, an employee of Gollad Ltd., at Gollad Ltd. Station No. 4, six miles west of Drayton Valley.

Left to right they are: Don Booker with Gollad Ltd., Fred Britton with Canadian Reclaim Ltd., Red Ummons of Western Transmission Ltd., N. Ural, of Kashiwazaki Mining Office, T. Tahed, of Kashiwazaki Mining Office, and Les Southwell, Field Superintendent for Gollad Ltd.

KEEP FIT CLASSES

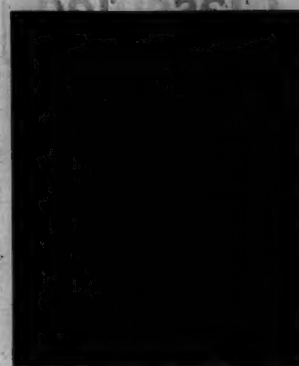

The Girls Gym Club Keep Fit Classes under the direction of Mrs. A. Lonsuewburgh held a parents meeting at the Scout Hall on Saturday, February 17. This was not a display but a regular lesson to that parents could see what the girls learn in their Physical Training Classes.

First to go through their routine were the youngest girls, six and seven year olds who are trained by Betty Meier. There are twenty members in this group. Next came Mrs. Lonsuewburgh's two groups, 22 girls aged 8 and 9 years, and 23 in 9.

Mrs. Lonsuewburgh feels that there is a good girl in the group, many of the girls are helped each other, and she wished no pay tribute to the Scout Group Committee who have donated the use of the hall.

Cont. page 3, col. 4.

Licenses Go On Sale

Japanese engineers visited Drayton Valley officials last week as part of a tour directed by Fred J. Britton of Canadian Reclaim Ltd.

T. Tahed, Chief of the Research Engineering section, in the production department; and N. Ural, Chief of the Production Section of the Kashiwazaki Mining Office, both of the Tachikawa Oil Co. Ltd., were accompanied by Red Ummons of Western Transmission Co. Ltd., of Vancouver, who acted as their interpreter, and by Mr. Britton.

Climax here were interested to learn that Japan has some three thousand wells in the northern section of the country which are very low producers. Only three thousand barrels of oil are recovered daily, along with reasonable quantities of gas and a great deal of water. Since this type of production poses many problems, Canadian methods are being studied. The tour included visits to Gollad Ltd., First Plant.

The visitors were guests at lunch of Gollad and Mobil Oil personnel. Following lunch Mobil Oil field installations were visited.

The senior group, ten years and over.

These popular classes were started last year by Mrs. Lonsuewburgh and ran from November to June. This year the D.V. Athletic Association sponsored the group and classes started in September and will run till June.

Mrs. Roberts Stred, of the Treasury Branch bank, in Drayton Valley, is holding place No. 12 0001, which will be the first plate of the series to be issued by the Treasury Branch on March 1st, when the license plates go on sale. The Treasury Branch will issue licenses this year; they will handle all types of plates and licenses.

Before applying for their plates customers are requested to have their renewal applications. The bank points out, also, that care should be taken not to scratch or mark on the outside of the envelope as they are carbon copies inside. Applicants are also requested to see that the vehicle they wish to register

is the one they presently own.

This year, as in the past, no special reservations will be made for plate numbers. The plates will be issued extraneously as the applications come in.

Hours for license sales will be from 9:00 a.m. till 5:00 p.m. Monday through Thursday, with an added hour of 9:00 a.m. to 6:00 p.m. on Friday, and closed all day Saturday.

The plates this year are green background with white numerals. As usual they were made by inmates of Fort Saskatchewan prison. The local branch issue will start at 12 0001 and go up as high as needed to supply the area with licenses.

Drayton Valley Post Office

Reflecting the growth of Drayton Valley and surrounding area, the Drayton Valley Post Office was up-graded to "Staff" Grade 9 status effective January 1st, 1932. "Staff" is the highest Post Office grouping in the Canadian Postal Service.

There are now fifteen Post Offices with "Staff" status in the Edmonton Postal District which extends from near Lacombe in the south to the Arctic and from the Saskatchewan to British Columbia borders.

Originally known as the "Power House" Post Office when established June 15, 1913, the retirement and post office on May 1, 1920 were resumed Drayton Valley after a village in Hampshire, England from which the wife of Postmaster, W.J. Drake came.

Records of annual postage sales for the period 1913 to 1918 are not available however, sales for the year 1919 amounted to \$43.35.

Until 1923, Power House later Drayton Valley, were classified by the Post Office as "non-accounting" or first class post offices. In 1923, Drayton Valley received its first up-grading to "accounting" post office status. Postage sales for 1923 totalled \$231.30.

Although revenue gradually increased during the years from 1923 through 1941 (sales \$364.43) to 1941 (sales \$572.17) this period was uneventful for Drayton Valley. The years 1923 and 1924 when sales decreased from the 1921 high showed less promise of a bright future.

The opening of the Pembina oil field in 1923-24 bringing with it a tremendous influx of new residents - all potential postal patrons - saw the Drayton Valley Post Office related to "Semi-Staff" status and, working all out. The Post Office and Drayton Valley have grown together since, as may be verified when 1941 postage sales of \$30,147.13 are mentioned.

Many long time residents of the area when recalling the past.

(Cont. on page 3, Col. 4)

In the front right is Mrs. Betty Meier, Junior Keep Fit Instructors. Standing in the rear is Mrs. Frieda Lonsuewburgh, Senior Keep Fit Class Instructors.

TOWN OF DRAYTON VALLEY

Guest Speaker at the closing luncheon of the Editorial and News Writing Conference held in the MacDonald Hotel over the past weekend was Mr. Bill Hogle, Neve Manager for CPN Radio station. Mr. Hogle spoke on the topic "General News Report". Among other reminiscences of newspaper days, Mr. Hogle mentioned the time when he was working on a Sunday. Ontario, paper and President Franklin Roosevelt came to spend a week in the area. A young reporter at the time Mr. Hogle thought he wouldn't be able to get a good story for his paper,

human interest news story of the president.

In the picture, on the left is John MacDonald, publisher of Westlock News and Chairman of the News Conference. Mr. Hogle, and Mr. Harold Gundersen, publisher of the Bow Island Graphic. In thanking the speaker Mr. Gundersen said he probably owed his newspaper career to Mr. Hogle, as back during Depression days, young Gundersen had applied for a job with the Medicine Hat News, of which Mr. Hogle was then editor and the News editor had given him his first job in the newspaper business and he had liked it so well he had stayed right with it, eventually ending with his own weekly.

The president and he did not talk about foreign or national affairs, instead they discussed local news. Hogle mentioned the little dog Fella, and the upshot of it was that Hogle won't be able to get a good story for his paper,

Mr. Hogle has been with C.F.R.N. for the past five years.

Notebook

Shades of Sir John A. MacDonald and Franklin Delano Roosevelt.....

John Diefenbaker's rolling, sonorous phrases, and his cutting humor at the expense of his political opponents brought vividly to mind the great forensic achievement of Canada's greatest statesman and America's last, great president.

Among other humorous allusions Mr. M. said the Liberal policies "Adventure in Reversionism".

The Judge was stern and right, county indignant. "I can't think of anything worse than a man beating up his wife," he said to the defendant. "What made you do it?"

"Well," said the cunning man, "She kept saying, 'Hit me Go ahead and hit me I'll have you brought before that bald-headed old bald colon of a judge and he'll fix you!'"

Home & School

The regular monthly meeting of the Home and School Association was held in the High School auditorium on Monday, February 26th.

Following the singing of "O Canada", the minutes were read by Mrs. J. Deane.

President Bud Stern reported that no decision has yet been reached regarding renewal of membership in the Federation. It is hoped that a recommendation will be made to members at the next meeting.

Education Week

In connection with Education Week, March 4-11 th, secretary Jean Magee announced that the Home and School Association have opened a grant account for the annual Scholarship Fund.

During Education Week they are hoping to interest over one hundred in this worthwhile project.

Fourteen scholarships and honor awards were made last fall by Drayton Valley and District pupils.

Mr. Maddock then gave some of the costs of various projects in Drayton Valley for last year. He listed the Home Economics and Industrial Arts Buildings, \$160,000; a 4 suite apartment for teachers, which will be ready for occupancy soon, \$14,320; an old school building and teaching renovated at a cost of \$10,000; and old school remodelled into a home, cost, \$4,000, and a shop, purchased, \$14,300.

On transportation Mr. Maddock said that 67 buses are used in the district to carry 2341 pupils for \$254 daily. Cost of this was \$281,197 in 1967.

Following Rev. Wright's thanks

Education Week

Mr. Maddock members inspected the new Home Economics and Industrial Arts Building. Home Economics students prepared and served cake, cookies and coffee. A display of sewing and needlework added interest to the school hour.

Next regular meeting will be held on March 26th.

The Pembina News Advertiser will also make awards for the best essay of from one hundred to one hundred and fifty words turned in by pupils of grades three, four, five and six. A prize for each grade will be given. Deadline for the essays will be on March 26th, the final school day of Education Week.

Education Week

Dean, 642-3888; Mrs. John Gray, 2-3177; Mrs. H. Magee, 642-3744. All contributions will be acknowledged.

As a special feature of Education Week there will be a display of children's art in the Hudson Bay Co. window.

Also displayed will be text and library books. The Hudson's Bay Company is offering prizes for the best pictures from each grade from 1-6, and will show all 4 winning pictures.

The Pembina News Advertiser will also make awards for the best essay of from one hundred to one hundred and fifty words turned in by pupils of grades three, four, five and six. A prize for each grade will be given. Deadline for the essays will be on March 26th, the final school day of Education Week.

The Prime Minister again proved himself to be a unusually gifted speaker as he presented the Party's cause to the group. The vision he had for the building of the nation and development of the west northward reminded members of the mighty vision Sir John A. Macdonald the "Founding Father" had held and laid out for the building of a nation from the vast barren wilderness which was then Canada.

The present government can well stand on their record of great achievements. For it is an impressive one.

ELKS BONS PIEL

The first D.V. Elks annual brazier and fish supper was held on February 26th, and fish proved to be a tremendous success.

The winning raffle in the first event was made up of Ralph Brown, Mrs. S. Cowman, Ed. Lids and Mrs. Bob Simons.

The raffle prize was shipped by Ed. Sandelin.

In the second event members of the winning raffle were: S. Cowman, S. Chapin, S. Palmer and Mrs. M. Greenman.

Support up for the second event was the raffle shipped by Mrs. J. Swain.

Tickets and prizes were presented by Worthy Exalted Ruler Bob Simons and Trustee John Swain at the strenuous and dance which followed. Music was by Don McKay and his orchestra.

LION'S CLUB MEETING

Rev. A. Wright, president of the Drayton Valley branch of the Red Cross, addressed Lion Club members at their regular dinner meeting held in the Cadogan room on Tuesday, on the work of the Red Cross.

Today we have all heard the news of American John Glenn's orbit of the earth, but said, making us realize the tremendous development taking place in science and technology. We are at the forefront of a new

Need another bathroom?

...and longing for the day when you can afford to go ahead with it? Or maybe you need an extra bedroom—a modern kitchen—a paint job—a new plumbing, heating or electrical system... Chances are you can have it right now, with the help of a Royal Bank Home Improvement Loan, repayable by instalments. See any branch of the "Royal" about this convenient, low-cost way to get the cash you need to make your home more livable, more valuable. Or pick up our handy booklet for details.

DO IT NOW WITH A HOME
IMPROVEMENT LOAN

ROYAL BANK

(Cont. from Column 1)
age, he added, in which it is even possible that our children will be travelling in space. In an intricate scientific project of this type many people are dependent upon each other for full co-operation.

We badly need this same co-operation in the field of human relations, said the speaker, but progress here has not been as great. There is a great new field of work for young people in this area.

Rev. Wright pointed out that though we can put a man into orbit we will have not learned to get along with our neighbors.

Many human tragedies are taking place daily, he said, and in many cases it is only possible for us to be there to help through the Red Cross. He then quoted G. B. Shaw who said that "money is health, strength, generosity and beauty, just as the lack of it represents illness, weakness, disgrace and ugliness."

In closing Rev. Wright lauded the services of the Red Cross blood transfusion service, disaster relief, veterans service, emergency services, Junior Red Cross and Water Safety.

The Lion Club will elect a member to represent them as a director of the local Red Cross.

From The Legislature

By C. R. Wood, M. L. A.

The Fourth Session of the Fourth Alberta Legislature opened on Thursday February 22nd with all the usual pomp, ceremony and color.

Highlight of the Speech from the Throne read by His Honor Lieut. Governor J. Percy Page, was "Change in the Foundation Program and in the oil and gas legislation and regulation to encourage more exploration; Legislation to permit Urban Countries and to establish a Provincial Racing Commission; Steps Toward Self Conservation and establishing a Veterinary College in Western Canada."

On Friday M. Mealy (S.C. Williams) moved the Reply to the Speech from the Throne. In his address he called for parity in agriculture and urged assistance in preserving the "family farm". He stated that agriculture should stand on its own color if it is to be the wonderful product claimed for it. Mr. Mealy, a teacher by profession, dealt with education and said "Education does not consist of filling a student's mind with formulas and facts, but should produce a person with a well-rounded character. In concluding his address he advanced the Social Credit Philosophy as a solution to Nelson's financial problems and said that it was tragic to find, under the present system of money system, that in wartime there is no difficulty in getting sufficient money, but in peacetime people are allowed to starve because of insufficient purchasing power.

J. Scrogg (S.C. Dwyer) in seconding the Reply to the Speech, stated that the amount of cash in Canada is being reduced at an alarming rate and in the expansion of cities, towns and villages, the building of industrial plants and highways, that will be needed for raising of crops at some future time, is being used without due consideration.

On Friday, January was made when Ernest Watkins (C.P.C.) Calgary-Glenora introduced a Public Bill "For the Recognition and Protection of Human Rights and Fundamental Freedoms within the Province of Alberta."

It was given its first reading and is a replica of the Federal Bill of Rights.

During the second week in the Legislature four Cabinet Ministers seven Backbenchers and two Opposition Members took part in the Throne Speech Debate. E. Watkins (P.C. Calgary-Glenora) got to the second for his Motion "It was the first time in the memory of officials that such a motion failed to receive the support of a second in the Alberta Legislature."

Wm. Twyn (S.C. Edmonton-Northwood) continued the debate by dealing with the financial system in use today and termed the "Coyne-Fleming" affair a phony hypocritical battle which took place in the House of Commons last year. He said that it was nothing more than a political maneuver to hide the true nature of the money racket. He stated that the most powerful man in Canada is not the Prime Minister, but is the Governor of the Bank of Canada, for in his hands, the economic life of this country is controlled by his control of the monetary system of Canada.

E. Goshen (S.C. Edmonton-Northwood) said that Doctor's fees should be given the same investigation as it being given the thing price in Canada. The high cost of Doctor's services is causing the closure of our state hospitals. He said, Mr. Goshen praised the country, saying, the House for the Agri and urged a Veterinary College for Alberta, preferably in Calgary.

Hon. A. O. Aaberg, Minister of Education gave a detailed outline of the working of the Foundation Program during the second week in the Legislature.

Hon. A. J. Hooker, Minister of Industrial Affairs outlined the history of the County System and told of the successes resulting from rural counties in Alberta. He said the system is applicable to any area that has a considerable mineral and agricultural base. He suggested that under the proposed Urban County

Act, Calgary might be a good place to start. Mr. Hooker devoted some time in warning against Communism and its danger. The public propaganda tends to demonize Youth, he said and said that Youth by adhering to the teachings of sex in schools to peace programs. Many ministers of the World's Churches have even been hoodwinked by this propaganda, he said.

Hon. I. C. Hainman Minister of Agriculture in dealing with the activities of his Department stated that it had become evident that a Veterinary College should be built in the year, because the cost at Guelph, Ontario was now unable to handle the numbers applying for the course, British Columbia and Manitoba are not interested in having the college, so the location will be in Alberta or Saskatchewan. The decision has not been finalized yet.

Tuesday, and Wednesday are Private Member's Days and were spent for the most part in dealing with resolutions. The personal one moved by E. Watkins (P.C. Calgary-Glenora) and seconded by M. Macgregor (Lib. Lac la Poudre) asking for a Provincial Hospital went down to defeat on Tuesday. Debates were started on two other resolutions. One asked for a general review of the provisions and actions of the Local Day Act in force in the Province of Alberta to legislative power to permit educational and recreational activities on Sunday and allow payment for them. The other resolution was started on two other resolutions. One asked for a general review of the provisions and actions of the Local Day Act in force in the Province of Alberta to legislative power to permit educational and recreational activities on Sunday and allow payment for them. The other resolution was started on two other resolutions. One asked for a general review of the provisions and actions of the Local Day Act in force in the Province of Alberta to legislative power to permit educational and recreational activities on Sunday and allow payment for them.

Premier Manning, when speaking in the Throne Speech Debate, explained proposed changes in the oil and gas laws designed to increase exploration, development and bring in additional revenue to the people of Alberta amounting to as much as \$4,000,000. He said the oil industry is called upon to pay 10 per cent of the Federal Government by way of Corporation Taxes and 10 per cent of the net income of the industry's profits and up to 50 per cent of the profits on transportation and production of oil products. The Province collects royalties from the oil industry in Alberta, thirty percent plus rentals and leases on land and a return to the Province of 10 per cent of the lease after geological surveys. The mineral-pipeline rule.

enthusiasm.
Mrs. Lashley felt that there was enthusiastic interest in the survey, and she hoped that an association could be formed from representative local citizens.

Since, casting the processing plants and this resulted \$5,000,000 last year. No where in the world, he said, does a higher percentage of oil return go to the people than here in Alberta, and no other place in the world today, oil companies find more economic and political stability with no fear of someone expropriating their holdings, than in Alberta.

Premier Manning also explained in detail the large deposits of oil in the Tar Sands and development would proceed as soon as it is economically feasible and resources available, he said.

Eighteen Government Bills and one Public Bill, were introduced and given First Reading. Many second readings, the principle of which will be discussed.

The House Motors people are reported in the Florida AAA Motorist to be undertaking an extraordinary translation-public service program. They're translating U.S. auto terminology into the Queen's English. Canadians and Americans who may have tried to explain their very late British service station will be sympathetic. British change are being laid out in the house, however, and best while in the U.S. They drew a blank stare. "Hed, windshield and trunk are the Canadian and U.S. vocabulary counterparts. The show on the other hand for the House Motors, who have been translating to Americans for years that the "cruze" on their newly-purchased imports are really "trucks."

SPIC YOUR MOUTH
Although speaking in behalf of a chicken. "And then gentlemen of the jury, I would ask you to take into consideration the fact that my client is short-tempered and consider the consequences of his action."

We have a brick wall a "No-tourism" it will only pay it a Doc to pour out one of the kids who ate some of the glue.

Matlock and Sons Trucking Company truck, driven by Driver WILF DeJongh, of Drayton Valley, hit the truck, or rather the now-ditched ditch on the way up to Boundary Lake in the Port St. John country.

The wreck was carrying a load of 3 inch casing and the casing kept on going when the truck stopped and put it on its side through the cab. Quick ditching saved the life of WILF.

The picture was taken at Fox Creek 30 miles north of Wainwright.

Editorial Comment "GUEST EDITORIAL"

SWEDEN BANS FLUORIDATION
By Roy Fama,
Publisher, North Hill News,
Calgary.

Startling news to the pro-fluoridationists is that Sweden, sometimes held up as the country of enlightenment, has recently cancelled its long-continued fluoridation of communal water supplies.

One town—Norrköping—where fluoridation was introduced by resolution of the local council has been ordered to desist.

This represents a final assessment of the proposition that addition of sodium fluoride to the water supply reduces dental decay.

First, the Royal Medical Board of Sweden seemed favorable to fluoridation. Then there were three protests by Professor Hugo Thorsell, Nobel Prize winner, who said fluorides killed enzymes, the digestive juices that help us to get the benefit of what we eat. Now fluoridation is 'out' in Sweden.

Fluoridation has many disadvantages in the eyes of those who treasure civic rights. They argue that "mass medication" is wrong; that freedom of choice can be interfered with by people buying their own drugs from a drug store. They say further that mortified teeth, the symptom of fluoride poisoning is admitted as a disadvantage of fluoridation. Mild poisoning is mild poisoning.

Sweden's classes could be conducted in the summer, as well as children would learn to swim, and the life they saved might be their own, or their child's. Statistics in the Western U.S. show that in the 9 to 44 year old class more people die from drowning than from any other way except by motor vehicles. A survey of nine swimming pools in central Alberta conducted by the D.V. Recreation Association showed that about 80% of the persons of swimming pools are children. There is no healthier form of sport or recreation.

There appears to be a feeling that if the swimming pool is not built the money would be for an arena. But that is not necessarily the case. One of an arena would be around \$200,000.00. If an arena were built here it would be necessary to borrow the sum of \$200,000.00 to make up the difference. In addition to that there is a time element involved. The money must be used this year or the grant will not be made by the provincial government.

There is at present, also, a quite large recreation building that is available during the summer months. It is owned by the Curling Club during the winter months, but becomes available to the general public again about April 1st, each year. If necessary, during the summer months recreational activities can be carried on in this building, and have been in the past.

A growing list of towns, of about the same size and financial means as Drayton Valley have built swimming pools, or are preparing to build in the coming season, and Drayton Valley could not be among these towns which will be equipped with a swimming pool.

The Rt. Hon. John Diefenbaker addressing the Progressive-Conservative Association gathering at the Macdonald Hotel on Saturday night. In the picture to the left of Mr. Diefenbaker is Alberta Progressive Conservative Association president Gerald Armstrong. To Mr. Armstrong's left is Mr. Diefenbaker.

The Progressive-Conservative Association of Alberta wound up a highly successful and well-attended convention which the Association put on in the Macdonald Hotel over the past weekend, with a banquet at which guest speaker was the Right Honorable John Diefenbaker.

The Prime Minister was in excellent form as he spoke to the more than eight hundred guests who were assembled for the dinner.

COOKING MAGIC

Mrs. Rae Goddes, B.N.R. Home Service Director
Tested Recipes and Meal Planning Ideas Prepared for Pamphlet News Advertiser Headed by the Home Service Department of Northwestern Utilities Limited.

If your supply of homemade jam is running low, suggest to your guests these delicious jams and marmalades.

DIETED APRICOT JAM
2 lbs. dried apricots
1 lemon - juice and pulp
1 orange - juice and pulp
3 cups sugar

Cover apricots with water and cook overnight. Add lemon and orange juice and pulp. Cook fruit until soft, 30-35 minutes, in as much water as is needed to keep it from burning. Run through a sieve if a smoother mixture is desired, but return all the pulp to the mixture. Add sugar. Cook rapidly about 30 minutes, stirring constantly until the jelly test. Pour into hot sterilized jars and seal. Makes approximately 5 pints.

APPLE MARMALADE
8 oranges
9 apples
3 lemons
9 cups granulated sugar
3 cups water

Wash the fruit. Squeeze the lemons and cut rind in thin

slices. Peel, quarter and slice the apples and let stand in lemon juice. Slice oranges thinly and cut in small sections. Combine all fruits, add sugar and water and allow to stand 1 hour. Heat slowly to the boiling point, stirring until sugar is dissolved. Roll gently to marmalade stage (when jelly-like syrup drops from spoon). Pour into hot sterilized glasses and seal at once. Yield: 4 1/2 pints.

FRESH STRAWBERRY JAM
(Frozen Strawberries)
1 1/2 cups strawberries (1-1/2 lb. package)
1 1/2 cups sugar
3 tbsp. powdered pectin

Thaw frozen, sweetened, sliced

strawberries as soon as possible. Place in large, heavy saucepan. Measure and sift the sugar aside, to add as a preservative. Place saucepan of water over high flame. Add powdered pectin; stir until mixture comes to a hard boil. Add sugar immediately, stirring. Keep jam at a full rolling boil for 1 minute, stirring constantly. Remove from flame; skim, pour quickly into glasses. Paraffin at once. Makes three 8-ounce glasses.

When entering an expressway, observe your own speed to that of through traffic. However, always yield the right of way to traffic on the expressway in order to create a hazard. Wait for a safe gap in traffic before you enter.

GAS IS YOUR BEST HOUSEHOLD BARGAIN!

"First In Community Service"

PEMBINA NEWS ADVERTISER

Vol. 7 No. 9 March 7, 1968 A. Playford, Publisher Box 130, Drayton Valley.

A.A.R.N. Presents Painting B.P.O.ELKS GUN CLUB

Mrs Dorothy Jahke, Matron at Drayton Valley Municipal Hospital. Mr. Allan Falconer, the young artist who painted the picture that is the A.A.R.N. presented to the hospital. Mrs. Clara Fisher, A.A.R.N. member, Mrs. Olga McIvor, A.A.R.N. member, Mrs. Marion Palmer, A.A.R.N. member and Mrs. Naomi Schneider, A.A.R.N. member.

Mr. Allan Falconer came to Drayton Valley on Saturday, February 24, 1968 to present to the local Chapter of the A.A.R.N. a painting purchased in memory of Mrs. Joan Amick to be hung in the Hospital corridor.

A tribute to Mrs. Joan Amick was written by Mrs. Brooks for the Pembina News Advertiser and we would like to reprint it at this time.

"With the tragic passing of Joan Amick, this community has lost a gifted personality who will be sorely missed by all who worked with her in the operating room and in the Hospital.

In addition, she had a charm of manner and a sense of humor which was a delight to all who worked with her. In a word she was the ideal of all that a nurse should be, fulfilling to an overflowing measure, the Florence Nightingale spirit and tradition.

FIRE DESTROYS HOME

An early morning fire completely destroyed the home of Mr. and Mrs. Coleman Pierce in Dodson Trailer Court on Wednesday morning last. The fire is thought to have started in the oil heater and spread rapidly to the rest of the dwelling. Fortunately Mrs. Pierce, with their three children, one a one-week old baby, were in Edmonton at the time of the fire. Mr. Pierce suffered burns on the face and hands and was treated in Drayton Valley Hospital.

Staying in the Pierce home at the time of the fire was young Ben Polivoda, whose house had burned the day before. Also in Dodson Trailer Court, Ben was working on a rig, and was on day shift, his brother happened to be working on the same rig, graveyard shift. At the time the fire broke out in the Pierce home.

The fire broke out on one of our coldest nights. The thermometer registered a chilling 20 degrees below zero when the fire first blew at 6 o'clock in the morning. In spite of the chill the Drayton Valley Volunteer Fire Department responded very quickly to the alarm.

Thus far, Drayton Valley has not had either as many fires as in the past, and we are hoping to keep it that way.

We have an extremely efficient and speedy fire department and are glad to know they are available whenever they are needed, but we hope that their services will not be needed too much in the future.

Rotary "Adventure In Citizenship" Winner

Miss Sheila Campbell, the daughter of Mr. and Mrs. Allan Campbell, won the Rotary sponsored trip to Ottawa with her prize winning essay on "The Importance of Education to Canadian Youth."

Miss Campbell is a twelfth grade student in Drayton Valley High School. She will be eighteen years old in the middle of this month. She was born in Lethbridge where her family formerly resided.

Sheila has always been very interested in the Girl Guide movement. She has won the highest award possible for this age, the "All-Round Coer" for Guides. She hopes to go to the University of Alberta this fall where she will major in education, expecting to become a teacher.

Her father, Allan Campbell is employed with Mobil Oil as materials supervisor.

Miss Campbell's essay appears on this page, below.

"THE IMPORTANCE OF EDUCATION TO CANADIAN YOUTH"

Education is of vital necessity to Canadian youth. It is not only the foundation on which our future generations will be benefited, but it is also the basis of our present day society. Education enables a person to enter into community affairs and to apply his knowledge in daily life.

The educated person is open-minded. He will never laugh at new ideas and before he makes a decision, he will consider carefully all the evidence surrounding the question. His curiosity and his eagerness to learn will lead to new inventions and he will never be satisfied until he has been given a chance to demonstrate his abilities. An educated person is therefore always willing to learn more and more.

Cont. page 3, col. 5.

Contestants in the Rotary "Adventure in Citizenship" writing contest. Left to right, Gerry McKenna, Ida Henson, Douglas McKenna and the winner, Sheila Campbell. On the right is Mr. Sid Mitchell, Rotary president.
